DETAILED ACTION

Status of the Application

Claims 1, 3-7, 13-16, 49 are pending.

Amendment of claims 3-7, 13-16, 49 and submission of a declaration under 37 CFR 1.131 by inventors Yue Xiong and Tomohiko Ohta in a communication filed on 11/30/2005 is acknowledged.

In a telephone conversation with Mary Miller on 3/7/2006, an agreement was reached to amend claim 6 to place the application in condition for allowance.

Examiner's Amendment

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this Examiner's amendment was given in a telephone interview with Mary Miller on 3/7/2006.
3. Please replace claim 6 as follows:
 6. An isolated cell comprising the expression vector of claim 5.

Reasons for Allowance

4. The following is an Examiner's statement of reasons for allowance. Although Edwards et al. (cited in the Non Final action mailed on 8/30/2005) teach a polynucleotide comprising SEQ ID NO: 1 and encoding a polypeptide which is 100% identical to the polypeptide of SEQ ID NO: 2 of the instant application, Applicants have submitted a 37 CFR 1.131 declaration by inventors Yue Xiong and Tomohiko Ohta where it is asserted that the claimed invention was conceived and reduced to practice prior to February 26, 1999, which is the 102(e) date of the reference by Edwards et al. Applicants have

Art Unit: 1652

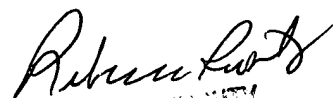

asserted in the Remarks section of the response filed on 11/30/2005 (page 9, first paragraph) that the dates in the documents provided as evidence (Appendix A) have been blocked out but are before February 26, 1999. The declaration and documents provided as evidence have been reviewed and are deemed sufficient to overcome the prior art rejection previously applied. Thus, the 35 USC 102(e) rejection of claims 1, 3-7, 13-16 and 49 over the teachings of Edwards et al. is hereby withdrawn. Claims 1, 3-7, 13-16, 49 directed to the nucleic acid of SEQ ID NO:1, nucleic acids encoding the polypeptide of SEQ ID NO: 2, variants and fragments of said nucleic acids as recited in the claims, expression vectors and host cells comprising said nucleic acids, and a method to recombinantly produce the polypeptide of SEQ ID NO: 2, or fragments thereof, are allowable over the prior art of record.

Conclusion

5. Claims 1, 3-7, 13-16, 49 are allowed.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
